DETAILED ACTION

Allowable Subject Matter

Claims 1-36 are allowed.

The following is an examiner's statement of reasons for allowance: prior art does not teach nor render obvious an input circuit for an RF power amplifier that has, in combination with other limitations, a limiting amplifier having an input coupled to the secondary side of the transformer and an output for providing an input to the RF power amplifier; neither does it have a predriver circuit for an RF power amplifier that has, in combination with other limitations, an amplifying stage coupled between the plurality of inverters and the input circuit; nor does it have a method of controlling a power amplifier having a predriver circuit that has the step of adjusting the DC bias levels in the predriver so that the input and output DC levels of the power amplifier are maintained in a predetermined relationship; nor does it have an amplifier that has, a first capacitance coupled between the second node of the first switching device and the third node of the second switching device; and a second capacitance coupled between the first node of the first switching device and the fourth node of the second switching device.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Patricia T. Nguyen whose telephone number is (703) 308-1927. The examiner can normally be reached on 6:30 AM - 5:00 PM.
